I. BDA Onboarding & Daily Operations

Welcome to the Spacious Venture BD team. Your success depends on discipline, lead list management, and tech-readiness. Below is your structured daily schedule, target key performance indicators (KPIs), and profile requirements.

DAILY BUSINESS DEVELOPMENT ROUTINE

TIME BLOCK	TASK / DESCRIPTION	TARGET OUTPUT / GOAL
09:30 AM - 10:00 AM	Lead & Tech Prep: Load Excel lists, verify active design requests, and check WhatsApp.	Prepare list of 50-60 target leads.
10:00 AM - 01:00 PM	Outreach Block 1: Peak calling window. Dial raw leads. Focus on establishing initial value.	Minimum 25 connected calls.
01:00 PM - 02:00 PM	WhatsApp Follow-up: Send society proof packs and videos to clients spoken with.	Send message templates to hot leads.
02:00 PM - 03:00 PM	Break & Briefing: Sync with the design team on floor plans received. Verify estimate timelines.	Confirm quotes are being prepared.
03:00 PM - 05:30 PM	Outreach Block 2: Afternoon calling block. Follow up on sent estimates and confirm factory visits.	Minimum 20 calls; schedule 1 factory visit.
05:30 PM - 06:30 PM	Reporting & Logging: Update the CRM database. Log objections. Submit report.	Submit Daily Summary to CEO.

2. Technical Product & Design Knowledge

To close premium home interior deals, you must speak with technical authority. Study these technical parameters and terminology to guide client material decisions.

MATERIAL SCIENCE: GURJAN PLYWOOD VS. PARTICLE BOARD

MATERIAL TYPE	SPACIOUS VENTURE SPEC	WHY IT MATTERS / WHAT TO TELL THE CLIENT
Plywood Core	IS 710 BWP (Boiling Water Proof) Marine Plywood with Gurjan Core in wet zones. IS 303 BWR in wardrobes and dry zones.	Aggregators use particle board. Particle board swells like bread in Bangalore's humidity—it crumbles within 2 years. Gurjan BWP plywood withstands direct water and lasts a lifetime.
Laminate Finish	1.0 mm thick high-gloss acrylic or premium matte PVC laminates.	We do not use cheap 0.8 mm laminates that bubble or warp. Our 1.0 mm thickness ensures a flat reflection and high scratch resistance.
Modular Hardware	Soft-close hydraulic hinges and tandem drawers from Hettich, Hafele, Ebco.	We do not use local unbranded hinges that rust or sag. Every hinge is tested for 100,000 open-close cycles.

FINISHING QUALITY: GERMAN CNC VS. CARPENTER HAND-CUT

X Carpenter Hand-Cut Hand saws leave micro-waves and uneven edges on plywood. Manual glue application peels away in 1-2 years due to moisture. Joint lines are thick and gather dust.	✓ German CNC Factory-Cut CNC machines cut boards perfectly straight to 0.1 mm precision. Edge-banders melt PVC tape onto the board at 200°C under pressure, sealing it from water.
📐 Kitchen Work Triangle The distance between the Sink (wash), Hob (cook), and Fridge (store) should be between 4 and 9 feet to minimize walking fatigue.	🕯️ Vastu Shastra Basics Kitchen: SE (Fire corner). Pooja: NE (Water corner). Master Bed: SW (Earth corner). Main entrance: East or North.

| 3. The Spacious Venture 8-Step Interior Process

Explain this structured timeline to your clients to set professional boundaries and show direct factory control over delivery.

1

1. Discovery Intake & Budget Analysis

BDA initiates contact, maps out BHK size, family profile (children, pets), Vastu requirements, and requests the floor plan on WhatsApp.

2

2. AI Concept Preview & Parallel Quote (24 Hours)

Design team inputs the floor plan into Spacious Venture Studio OS, generating custom 3D AI concept directions and an itemized module-by-module cost estimation.

3

3. Factory Walk-in & Material Inspection

Client visits our Sulikunte Road plant. BDA presents the materials checklist (IS 710 marine ply, Gurjan core, soft-close hardware) and demonstrates factory machinery.

4

4. 10% Booking & Laser Measurements

Client pays a 10% booking advance. Site engineers visit the property with digital laser meters to map column protrusions and pipeline configurations.

5

5. 2D/3D Design Freeze

Designer refines the 3D scene and exports 2D elevations showing every drawer depth and loft division. Client signs off on layout, materials, and colors.

6

6. 40% Production Payment & CNC Execution

Client pays 40%. Technical drawings are converted into CSV cutlists. Raw sheets are cut on German CNC panel-saws. (The **45-day clock begins here**).

7

7. Delivery & On-Site Assembly

Modular units are flat-packed and delivered via Spacious Venture trucks. Installation is quick, dust-free, and noiseless since all units are pre-drilled at the factory.

8

8. Handover, 10-Year Warranty & Care Activation

Site supervisor reviews a 50-point checklist. Keys are handed over, and the 10-year workmanship warranty and 2-year free maintenance care are activated.

4. SaadSells Conversational Dialogue Trees

Never pitch blindly. The main objective of the cold call is **getting the floor plan blueprint on WhatsApp**, not closing the deal. Navigate objections using these trees.

BDA (OPENER)

"Hello [Client Name], my name is [Your Name] from Spacious Venture. I know you weren't expecting my call. We are working with some of your neighbors in [Society Name]. Do you have 20 seconds?"

CLIENT (SKEPTICAL)

"Where did you get my number? I'm getting ten calls a day."

BDA (DISARMER)

"I completely understand, [Client Name]—I'd feel the same way. We coordinate with local property registries in the Sarjapur corridor to identify new handovers. I apologize if my call was intrusive. The reason I dialed is that our factory is nearby on Sulikunte Road. We wanted to offer you a free parallel quote so you have a benchmark to compare other pricing. No pressure at all."

CLIENT (INTERESTED)

"I'm already talking to Livspace / HomeLane. They have already given me a quote."

BDA (DIRECT PLYWOOD HOOK)

"Aggregators sub-contract manufacturing, adding showroom rents and franchisee margins to your bill. We manufacture in-house on Sulikunte Road using IS 710 waterproof Gurjan plywood and German CNC cuts at 30% lower cost. If you share their quote scope or your floor plan, we will prepare a parallel estimate using identical specs so you can benchmark. Shall I ping you on WhatsApp?"

CLIENT

"Just tell me your price per square foot for a 3BHK."

BDA (CONSULTATIVE REDIRECT)

"We avoid per-sqft pricing because it leads to hidden costs later. Prices change depending on swing vs sliding doors and loft heights. We give a transparent, itemized cost breakdown. Share your floor plan blueprint on WhatsApp, and our design team will prepare a custom AI concept and itemized quote in 24 hours. Would that be helpful?"

5. Custom Calling Scripts (Part I)

Always speak with a ****slow, calm, low-pitched, and confident tone****. Fast talkers sound like telemarketers. Pause after asking questions to let the client respond.

SCRIPT 1: GENERAL COLD CALL SCRIPT

BDA [TONE: CALM, PROFESSIONAL, UNHURRIED]:

"Hello, is this [Client Name]? Hey [Client Name], my name is [Your Name] from Spacious Venture. I know you weren't expecting my call. We are speaking with new property owners in the Sarjapur corridor who are planning their home interiors. Did I catch you at a bad time, or do you have 20 seconds?"

CLIENT:

"Yeah, tell me."

BDA [TONE: INFORMATIVE, AUTHORITATIVE]:

"In short: we are a factory-direct interior studio based on Sulikunte Road, Sarjapur. Homeowners work with us because we manufacture everything in our own local facility instead of using middlemen, which saves them 30-40% compared to typical design aggregators. We also back everything with a 10-year workmanship warranty and a 45-day promised completion timeline. I wanted to check—have you already finalized your interior team, or are you still exploring quotes and layouts?"

BDA [IF EXPLORING]:

"Instead of scheduling a long meeting, would you be open to sharing your floor plan blueprint on WhatsApp? Our design team will run it through our AI design platform and send you a 3D concept direction and a transparent modular quote in 24 hours. You can compare it with your other options—completely free of cost. Should I text you on this number?"

SCRIPT 2: SOCIETY-SPECIFIC PROOF (NAMBIAR MILLENNIA)

BDA [TONE: CONFIDENT, FAMILIAR, LOCAL EXPERT]:

"Hello, [Client Name]? Hi, I'm [Your Name] from Spacious Venture. I know you weren't expecting my call. We are reaching out specifically to homeowners in Nambiar Millennia since we've already completed 3 projects in your society and know your layouts inside out. Do you have 20 seconds?"

BDA [TONE: CONVERSATIONAL, SHARING PROOF DETAILS]:

"We recently finished three units there, including a premium L-shaped parallel kitchen and a fluted media wall in Tower B. Because we've already done these projects, we know the exact column measurements, pipe duct configurations, and electrical structures in Nambiar Millennia by heart. Since our factory is located on Sulikunte Road—just 10 minutes from Nambiar—we can guarantee a 45-day completion, a 10-year warranty, and 2 years of local service support. If you have your unit's floor plan handy, I can share photos of our completed Nambiar homes on WhatsApp and prepare a quick 3D visual preview for your specific configuration. Can I ping you on this number?"

5. Custom Calling Scripts (Part II)

Use this script specifically for contact lists from the Modern Spaaces Engrace 3 & 4 registry sheets. Target their recent possession timeline.

SCRIPT 3: EXCEL SHEET LEADS (MODERN SPAACES ENGRACE 3 & 4 HANDOVERS)

BDA [TONE: WELCOMING, CONGRATULATORY, NEIGHBORLY]:

"Hello, is this [Client Name]? Hi [Client Name], I'm [Your Name] from Spacious Venture. I know you weren't expecting my call. We are reaching out to homeowners in Modern Spaaces Engrace 3 & 4 because we have completed 3 projects there, have 2 active bookings, and our manufacturing unit is located right next to you on Sulikunte Road. Do you have 20 seconds?"

CLIENT:

"Yes, tell me. I have a flat in Engrace 3. We just got possession."

BDA [TONE: SUPPORTIVE, REASSURING]:

"Congratulations on the possession! I know it's a busy time with registries and handover paperwork. Since we are based right next door on Sulikunte Road, we have mapped out the exact layout configurations for Engrace 3 and 4 (including the sliding wardrobe depths and chimney ducting vents). Because we are factory-direct, we cut out showroom rents and offer a 45-day guaranteed completion with a 2-year free local service warranty. Many of your neighbors are sharing their floor plans for comparison. If you send me your BHK configuration layout on WhatsApp, we will generate an AI concept preview and a parallel estimate showing exactly how much you can save by going factory-direct. Can I send you a quick text on WhatsApp to connect?"

💡 Why Script 3 Closes High

Homeowners in Engrace 3 & 4 are physically located minutes away from the Sulikunte Road factory. Emphasizing that we have already mapped the chimney ducting vents and sliding wardrobe profiles for their exact building configurations removes the friction of technical measurements and builds instant trust.

| 6. Closing the Deal: From WhatsApp to Booking

Home interior contracts are high-value transactions. You cannot close this via phone calls alone. You must guide the client through the structured Spacious Venture conversion funnel:

1

Stage 1: The Initial Call

Goal: Establish micro-agreement and get them to WhatsApp their builder floor plan blueprint.

2

Stage 2: The WhatsApp AI Preview

Goal: Send their custom 3D AI concept renders and transparent initial estimate to build excitement within 24 hours.

3

Stage 3: The Factory Booking Close

Goal: Invite them to visit the Sulikunte Road plant to inspect materials, watch German CNC machinery cuts, and secure the booking advance.

HOW TO INVITE A CLIENT TO THE FACTORY (SCRIPT)

BDA:

"Hey [Client Name], I hope you saw the initial 3D AI preview and quote I sent you on WhatsApp. Most design firms ask you to sit in a retail showroom with artificial lighting and glossy catalogs. We do things differently. Since our factory is right on Sulikunte Road, Sarjapur, we want to invite you to do a Material Walkthrough. You can inspect the raw Gurjan plywood core, touch the soft-close drawer runners, and see the German CNC machines that will cut your actual units. It takes just 30 minutes. Are you free this Saturday morning at 11:00 AM, or would Sunday afternoon work better?"

The Factory Floor Close Technique

When the client is at the factory, show them a raw, unlaminated sheet of IS 710 BWP plywood. Have them touch the core. Explain: *"Aggregators hide their core materials inside laminated panels. We show you our Gurjan plywood before we glue the laminates. That is why we offer a 10-year workmanship warranty and 2 years of free service care."* Then, present the booking form: **"To freeze your modular pricing and secure your 45-day completion slot, we need a 10% design booking advance. If you decide to cancel before the site measurements, this booking is 100% refundable."**

7. WhatsApp Templates & Sales Toolkit

BDAs should copy, customize, and paste these message templates. Keep these templates formatted on your phone for rapid follow-ups.

INITIAL WHATSAPP COLD REACHES (NO CALL CONNECTED)

TEMPLATE 1 (GENERAL COLD REACH):

"Hi *[Client Name]*, this is [Your Name] from Spacious Venture. I tried reaching you regarding your flat interiors. We are a factory-direct interior studio based on Sulikunte Road, Sarjapur. Since we manufacture in our own facility, we cut out showroom rents and offer premium IS 710 waterproof plywood interiors at 30-40% lower costs than aggregator brands (w/ a 10-year warranty & 45-day handover). If you share your floor plan blueprint here, our design team will prepare a free 3D AI concept render and transparent quote in 24 hours. No pressure at all!"

TEMPLATE 2 (MODERN SPAACES ENGRACE 3 & 4 SPECIAL):

"Congratulations *[Client Name]* on your flat handover at Engrace! This is [Your Name] from Spacious Venture. Since our factory is right next door on Sulikunte Road, we have completed 3 flats in Engrace and have mapped out your exact building column coordinates and kitchen duct routes. Many of your neighbors are receiving comparison quotes from us. Please share your flat number or BHK type here, and we'll WhatsApp you a free 3D AI layout preview. Would that be helpful?"

ACTIVE FOLLOW-UP TEMPLATES

TEMPLATE 3 (POST-CALL FOLLOW-UP):

"Hi *[Client Name]*, great speaking with you! As promised, here is our factory address: Sulikunte Road, Sarjapur, Bangalore. Location pin: [Insert Pin Link]. Please share your floor plan blueprint here once you have it, and we will get your free AI designs and estimate prepared immediately. Have a great day!"

TEMPLATE 4 (POST-ESTIMATE FOLLOW-UP):

"Hi *[Client Name]*, just checking if you had a chance to review the 3D AI preview and itemized quote we sent yesterday? Would you like us to adjust any cabinet colors or drawer layouts, or would you prefer to schedule a quick 30-minute walkthrough at our factory this Saturday to inspect materials?"

⚠️ SAADSELLS DISARMING CHECKOUT (FOR UNRESPONSIVE LEADS)

If a lead ignores 2+ messages, paste this exact disarming checkout. It gets an 85% response rate:

"Hi [Client Name], I haven't heard back from you on the quote. It usually means either you've finalized another team, or your plans are on hold. Either way is completely fine! Should I close your file for now?"

THE BDA SALES TOOLKIT CHECKLIST

Physical BD Kit

- ****Raw Plywood Block****: 4"x4" IS 710 BWP marine ply showing Gurjan core.
- ****Soft-Close Drawer Demo****: Ebco/Hettich hydraulic hinge sample block.
- ****Measurement tape****: For site walk-ins.

Digital BD Kit

- ****WhatsApp Proof Folder****: Photos of 3 Nambiar and 3 Engrace completed flats.
- ****Spacious Venture Maps Link****: Ready to share.
- ****Estimate template****: Standard Excel calculator.
